IMMIGRANT ARRIVALS TO ONTARIO
IMMIGRANT LANDINGS TO CANADA WITH ONTARIO AS THE PROVINCE OF INTENDED DESTINATION

JANUARY 1 TO DECEMBER 31, 1983

INTRODUCTION

The summary and tables presented in this report pertain to the total number of immigrants landing in Canada in the 1983 calendar year for whom Ontario was the province of intended destination.

In this report, table numbers have been changed slightly from those in the previous volume as has the order of some of the tables for greater readability.

As in the 1982 report, a summary of the definitions used by Employment and Immigration Canada for the various immigrant categories is appended at the back of this report. This has been included in response to numerous queries.

SUMMARY

The total number of immigrant landings to Canada with Ontario as the province of intended destination in 1983 was reported by Employment and Immigration Canada to be 40,036, a decrease of almost 13,000 compared to 53,031 in 1982 and the 1981 total of 54,890.

Community of Destination

Figures are shown for the same 22 Ontario communities as in the 1982 report and they account for 85 percent of the Ontario-bound immigrants.

The Metropolitan Toronto-Peel Region area of the province attracted 62 percent of Ontario's immigrants with 55 percent headed for Metropolitan Toronto and 7 percent to Mississauga and Brampton. This represents a slight increase of 2 percent for Metropolitan Toronto over 1981. The 1983 percentage distribution for urban centres outside of this area was similar to that for 1982: Ottawa (6 percent); Hamilton (3 percent); London, Kitchener-Waterloo and Windsor (approximately 2 percent each); and St. Catharines (approximately 1 percent).

Immigrant Category (Table 1)

The immigrant categories are determined by the Federal Government. The 1983 province-wide distribution for the various categories is shown below:

Immigrants Destined for Ontario, 1983

Immigrant Category	Number	Percent
Family Class	22,611	56.5
Assisted Relatives	2,401	6.0
Refugees & Designated Classes	6,068	15.2
Independents	8,956	22.4
Total	40,036	100

The only notable differences over 1982 are a considerable increase (by 14 percent) in the proportion in the family class along with a decline in the independents and assisted relatives categories of 10 and 5 percent respectively.

There was very little change in the distributions for the 22 communities of those in the various immigrant categories. In 1983, 60 percent of those in the family and assisted relatives categories and just over half of the independents were headed for Metropolitan Toronto, as were 45 percent of those in the refugees and designated classes, the figure for the latter being similar to that of the previous year. Independents continued to be more widely dispersed outside of major urban centres, with 23 percent heading to "other" localities, than those in any of the other immigrant categories. Overall, however, the percentage differences from 1982 to 1983 for the specific communities outside of Metropolitan Toronto were slight.

Country of Last Permanent Residence (Table 2)

The most notable change in the source countries of immigrants destined for Ontario in 1983 was the decline of the United Kingdom from 1st to 5th place (providing 8 percent compared to 16 and 19 percent in 1982 and 1981 respectively). This change was accompanied by a 7 percent increase to 34 percent for Asian immigrants and a modest increase for those from the Caribbean and Guyana, the United States, and Central and South America (to 14, 8 and 6 percent respectively). The proportion of immigrants from Eastern Europe remained relatively stable (almost 12 percent compared to 11 in 1982).

The decline in the United Kingdom as a source area to fifth place resulted in the Caribbean and Guyana assuming first place followed by Eastern Europe, South Asia and the United States, with the U.S. now in fourth place compared to sixth in 1982. Hong Kong moved up one to sixth place followed by Eastern Europe (down from fourth place in 1982). Vietnam remained in eighth position while Central and South America, and the Phillipines reversed position as the last two of the ten leading source areas.

The following table sets out the percentage distribution of immigrants from source areas for 1980, 1981, 1982 and 1983:

Immigrants to Ontario from Areas of Last Permanent Residence

Percentages

Source Area	1980	1981	1982	1983
United Kingdom	15.0	18.0	15.9	7.7
Other Europe	17.3	20.5	24.6	22.0
Caribbean and Guyana	10.0	10.9	12.4	13.6
Central and South America (excluding Guyana)	2.8	3.4	3.8	5.7
United States of America	6.2	7.7	7.3	8.4
Asia (excluding Middle East)	41.1	29.5	27.5	34.0
Middle East (including Israel)	3.5	4.3	4.2	3.7
All Other	4.2	4.8	4.4	4.9
Total	100	100	100	100

Country of Birth (Table 3)

The proportions of immigrants born in specific countries or within the larger areas shown are again very similar to those for country of last permanent residence. As in 1982 the figures do indicate small numbers of immigrants coming to Ontario from the United Kingdom, the United States and Hong Kong as well as from Europe who were born elsewhere, and again there was a slightly higher proportion of immigrants born in Eastern Europe who immigrated from some other area. The most notable difference was with respect to immigration from Hong Kong where the percentage was 8 percent for Country of Last Permanent Residence compared to 5 percent for Country of Birth. Overall, however, the percentage differences were slight.

Age and Sex (Tables 4 and 5)

The age distribution of 1983 immigrants was somewhat comparable to that for 1982 with a slight increase in those between ages 22 and 44, continuing a trend noted in the previous year. Again, two-thirds of the 1983 immigrants were over 22 years of age, with the remaining one-third, of course, 21 years of age or under. The percentage of those less than 15 years of age dropped to 15 percent. The proportion of seniors, age 65 and over, increased slightly.

Female immigrants outnumbered males in 1983 to a much greater extent (3,700) compared to only 1,035 in 1982, 1,306 in 1981 and 510 in 1980. As a result, the percentage gap between males and females widened overall to 9 percent, and was most notable in the 45 to 64 age category where the difference was approximately 60 percent (female) to 40 percent (male). Females also out-proportioned males in other adult categories (by 13 percent for the 19 to 21 age group and 7 percent for those between 22 and 44). The percentage difference for seniors (age 65 and over) remained relatively constant with 15 percent more females. Male immigrants outnumbered females by small percentages in all age categories below 19.

Years of Schooling (Tables 6 and 7)

The province-wide distribution for years of schooling of 1983 immigrants is summarized below:

Years of Schooling, Ontario Immigrants, 1983

Years of Schooling	All Immigrants		Immigrants Aged 15 and Over Intending to Enter the Work Force	
	Number	Percent	Number	Percent
Under 5	8,632	21.6	3,577	10.7
5 to 8	7,601	19.0	6,058	18.2
9 to 12	13,472	33.7	13,347	40.1
13 or more	10,165	25.4	10,151	30.5
Not stated	166	0.4	166	0.5
Total	40,036	100	33,299	100

As in 1982, the largest proportion of immigrants, a third, had from 9 to 12 years of schooling. However, the percentage of those with 13 or more years of schooling declined to 25 percent, a decrease of 3 percent over the 1982 figure. The proportions of those with 8 years or less remained at 40 percent, compared with 50 percent in 1980.

Of those immigrants intending to enter the work force, the major change between 1982 and 1983 was a 4 percent decline in 1983 in those with 13 or more years of schooling and a 3 percent increase for those with five to eight years. Only 11 percent of those heading for the work force in 1983 had less than 5 years of schooling.

Work Force Participation and Intended Occupation (Tables 8 and 9)

Seventy-two percent of the 1983 immigrants 15 years of age and over intended to enter the work force, a slight decrease from the 75 percent in 1982. The remainder included students, spouses and others.

Only 13 percent of the 1983 immigrants were headed for professional and technical occupations, a decrease from 20 percent in 1982. The increase in unidentified workers (to 45 percent from 37 percent in 1982) was reflected in lower proportions in most other occupational categories as well, although not as dramatically.

Mother Tongue (Table 10)

Seventy-one percent of 1983 immigrants to Ontario reported a non-English mother tongue. The percentage of immigrants with English mother tongue continued to decline in 1983 to 29 percent compared to 35 percent in 1982 and 38 percent in 1981. In fact, the 1983 proportion dipped below the 31 percent figure for 1980. English was followed by Cantonese (12 percent in 1983, compared to 9 percent in 1982). South Asian and South East Asian mother tongues were characteristic of 10 and 8 percent of 1983 immigrants respectively, both slightly increased from the previous year. Eastern European languages declined slightly. Spanish was the mother tongue of 5 percent of Ontario's 1983 immigrants. A summary table of the 1983 mother tongue distribution for Ontario is set out below:

Mother Tongue	Number	Percent
English	11,619	29.0
French	231	0.6
Other European	11,336	28.3
Asian	13,934	34.8
Other	2,916	7.3
Total	40,036	100

Official Language Ability (Table 11)

The proportion of immigrants without ability in either English or French increased to 44 percent in 1983 compared to 39 percent in 1982, while the proportion with English language ability only declined five percentage points to 52 percent. Three percent knew either French only or both English and French.

APPENDIX

IMMIGRANT CATEGORY - DEFINITIONS*

Canada's Immigration Act sets forth three basic classes of admissible immigrants: the family class, Convention refugees, and independent and other immigrants (including assisted relatives).

Family Class

This class consists of certain close relatives sponsored by a Canadian citizen or permanent resident at least 18 years of age and residing in Canada. The Act specifies eight categories of relatives eligible for admission under the family class. Individuals in the family class will not be assessed under the point system, but must meet specified standards. The sponsoring relative in Canada is required to sign a statement promising to provide for the lodging, care and maintenance of the applicant and accompanying dependants, for a period of up to ten years.

Convention Refugees

The refugee class is based on the definition from the United Nations Convention and Protocol Relating to the Status of Refugees. Refugees seeking resettlement in Canada are assessed against factors relating to their adaptability to Canadian life and on the amount of settlement assistance available to them in Canada, or are admitted on humanitarian grounds in times of crisis.

Independent and Other Immigrants

This class includes assisted relatives (see below), entrepreneurs, retired persons, those who intend to be self-employed, and others who apply to immigrate on their own initiative at Canadian government offices abroad. Except for retirees, persons in this class are assessed and selected according to the point system.

Assisted Relatives

These are people, other than members of the family class, who have kin in Canada willing to help them get established here. The Immigration Act specifies the categories of relatives eligible to apply under this category. The point system applies.
